After breast cancer, chemo, etc. several years ago, she was declared cancer-free. Then she was diagnosed for the other breast and a different kind of cancer about a year ago. A recent trial chemo was difficult for her, but her death came so unexpectedly. Rick is the oldest of five, and this is the second sibling death. — 6/3

He started physical therapy again last week and *so far so good*. He's convinced that prayers worked; let's pray for continued healing and relief. — 6/4
